How to plan a search strategy

Introduction

Library and Information Services subscribes to numerous databases and electronic journals services. This page aims to provide tips and guidelines for successful searching. Do allow time to think about your search terms and to learn how to use the databases useful for your subject.

What is this?

Other ways to contact us

This guide is divided into six steps as follows:

- Step one - Spend some time thinking about your topic
- Step two - Considering your search terms
- Step three - Linking your search terms together - Boolean logic
- Step four - Choosing your databases
- Step five - Searching and modifying your search online
- Step six - Relevant results retrieved! Next steps

Everything out on loan?
