What is Disabled Students' Allowance?
You can apply for Disabled Students’ Allowances (DSAs) to cover some of the extra costs you have because of a mental health problem, long term illness or any other disability.

You get the allowances on top of your other student finance. You will not need to repay DSAs.

You can apply for Disabled Students’ Allowances (DSAs) if you live in England, are studying in Higher Education and have a disability that affects your ability to study.

Visit the government website to apply:
