

## **Personal Protective Equipment (PPE)**

PPE is equipment that will protect you the user against health and safety risks. When you are inducted into specialist spaces and on the use of specialist equipment you will be informed of the appropriate PPE and where to get this from.

PPE is an added precaution /control measure and where possible we try and minimise the risks through other means such as specialist extraction, machine guards etc.

Below is a list of the equipment we have available:

- Safety goggles
- Welding goggles
- Face guard
- Dust mask
- Spray respirator mask
- Welding mask
- Apron
- Leather overalls (smocks)
- Full body overalls
- Fluorescent jacket
- Ear defenders
- Heat resistant gloves
- Nitrile gloves
