

# Submitting an assignment to TurnItIn in Moodle

## What is TurnItIn?

TurnItIn is used for submissions via YSJ Moodle to check originality and, by some departments, to mark submitted work. A TurnItIn assignment is indicated by a red arrow around paper icon beside your assignment link. The other Moodle submission type shown by a hand holding a piece of paper is detailed in another help sheet.

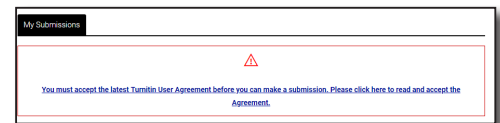

## Uploading your assignment

Click on the submission link in Moodle. You may have to accept an agreement from TurnItIn if this is your first use.

Shown is the **Assignment title**  
**Start date** is the earliest date to submit.  
**Due date** is the latest date to submit  
**Post date** is when marks will be released.

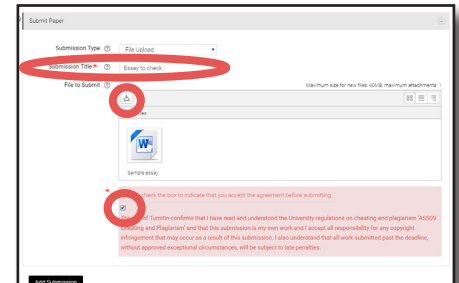

Click on **Submit Paper**

Set a **Submission title** and add your file by clicking on the **Add File** button or dragging the file into the box.

**Tick** the box or the terms of use and click **Add Submission**

You will see a **digital receipt** which is also emailed to your university account. The submission date and time will be shown.

## Similarity report

The similarity percentage will show as **pending** until the report is completed. This may take a few minutes at busy times. Some assignments may be set to not allow students to view this report. When a percentage is shown, it can be clicked to show the report. See our other guidance for more details.

## Changing your submission

Most assignments are set to allow re-submission until the Due Date with the final submission being the one that is marked. Tutors can set this differently. If re-submission is not allowed contact your tutor or the School Admin Unit.
