

New Attendance Platform

Students will use the MyYSJ app to register their attendance at sessions (online and face-to-face) by entering an 8-digit code given to them by their lecturer during the session. Note that the code is unique for each session.

Here's what you need to do:

Students

Students will enter the code via the MyYSJ app, you will need to download it if you haven't already done so.

Android users can go here:

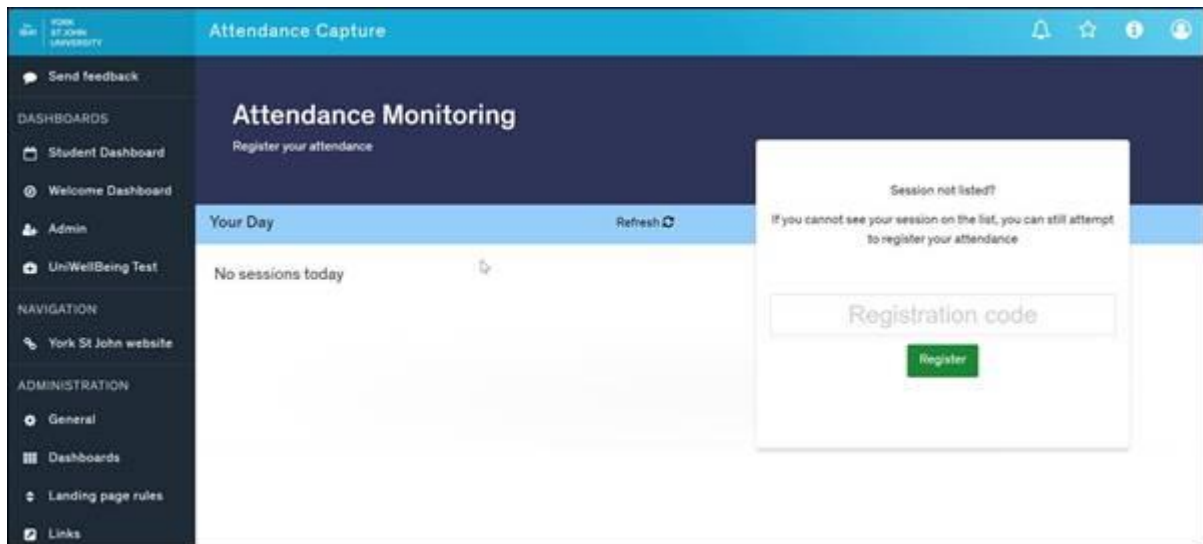

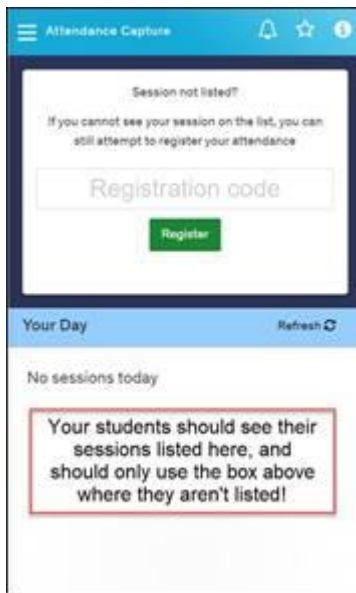

https://play.google.com/store/apps/details?id=com.mydaycloud.app.yorks&hl=en_GB

Apple iOS users can go here:

<https://apps.apple.com/gb/app/myysj/id1477400333>

Students can also access MyYSJ online via PC, laptop, tablet etc. at <https://yorks.myday.cloud/dashboard/student> if preferred (so a smartphone is *not* required).

Students will see a tile on the app called Attendance or 'Check In', you just need to tap on the tile, find the session from their list of sessions that day, and enter the code you have given them:

Phone view (top) & desktop view (bottom) – except hopefully your students have sessions listed

Attendance Monitoring: Student policies and documents
