**YORK
ST JOHN
UNIVERSITY**

Register of Collaborative Provision 2025-26

KEY

Collaborative activity as defined by York St John University:

Validation

The process by which York St John University judges and approves a programme of study¹ designed, developed and delivered by a partner organisation and approves it as being of an appropriate standard and quality to lead² to one of its awards. The intellectual property rights are owned by the partner. YSJU has the responsibility for academic standards.

Franchise

The process by which York St John University agrees to authorise another organisation to deliver part or all of one of its own approved programmes of study. YSJU retains direct responsibility for the programme content, the teaching and assessment strategy, the assessment regime and the quality assurance. The intellectual property rights are owned by YSJU, which also has the responsibility for academic standards.

Articulation

The process by which all students who satisfy academic criteria on a specified programme delivered at another institution, are automatically entitled, on academic grounds, to be admitted with advanced standing, to a subsequent stage of a programme at York St John University.

Off-site Delivery Provision

A specific form of a franchise in which YSJU-approved associate tutors (who are staff of the partner institution) deliver teaching at the partner's site using the partner's facilities; the Associate Head is a member of YSJU staff.

¹ a programme of study may comprise a single, stand-alone module

² "leading to an award" includes the award of modular credit, which may not in itself constitute a named YSJU award
