Programme aims

The BA (Hons) International Hospitality Management programme is based on the philosophy that your development should be incremental and this course aims to build on the grounding in the disciplines as studied prior to admission.

The course encourages you to develop the skills and competences of a future manager and event organiser. To do this, you should be capable of making decisions at both a strategic and at a tactical level, emphasising the complexity and dynamics of business and management and taking cognisance of the integrative nature of the various factors which impinge upon management decisions. The programme incorporates frameworks for reviewing, reflecting, analysing and critiquing existing individual and organisational practices.

The outcome of this process will be a critical appreciation, in order to: make justified decisions; apply those decisions in a variety of contexts; communicating the decisions and make integrative links between disciplines and across organisations in a context of change.
