Introduction

The BA (Hons) Professional Policing Practice is awarded upon completion of the Police Constable Degree Apprenticeship (PCDA), which is a 3-year programme combining academic study with operational policing. Following successful completion of the programme your appointment as a police officer will be confirmed with Humberside Police.

This bespoke programme has been designed and developed in collaboration between York St John University and Humberside Police and it complies with the College of Policing's licensing agreement. During the programme, you will follow the National Policing Curriculum and engage with a range of contemporary and relevant issues in the UK and across international policing.

The BA (Hons) in Professional Policing Practice will support you in your development as a police officer. It will introduce you to the role of policing through the study of law, policy and procedure, criminal justice relevant to policing in England and Wales and allow you to consider global policing issues. The programme is licensed by the College of Policing as part of the Policing Education Qualifications Framework (PEQF) and engages with a range of contemporary and relevant issues in the UK and across international policing and by following the National Policing Curriculum. The modules enable you to pursue a focused study of police law and policy and consider contemporary issues facing the police service in the UK and internationally.

The programme has been structured into modules, to be taught across teaching blocks, and interspersed with professional deployments of increasing length. The teaching blocks advance your learning over time, enabling you to acquire foundation knowledge and explore related units of work in increasing depth during the programme. Your deployments have also been phased to help you apply and expand this knowledge in different operational policing contexts, whilst benefitting from appropriate levels of support and supervision.

The curriculum has been designed to support you to:

- Revisit the same units of work, advancing understanding throughout the programme
- Study at progressively deeper levels, with increasing levels of complexity
- Apply prior knowledge and experience as you progress through the apprenticeship
- Experience a range of operational policing contexts.

Special Features of the Programme

The collaborative approach to programme design adopted by Humberside Police and York St John University, ensures this PCDA has strong operational relevance coupled with an effective academic framework required for a progressive degree programme.

There are a number of special features of the programme, designed to enhance your success:

- You will be taught by experienced police officers, police staff and university lecturers with specialised backgrounds relevant to the curriculum
- Your class-based learning is structured to support the development of your knowledge and skills, blending it with work-based research and study experiences
- You will have varied work-based placements in a range of operational policing contexts, assisting you to develop, and evidence, occupational competency

- You will be allocated dedicated time for independent study throughout the programme to enable you to balance demands of work, study and life effectively
- Teaching approaches will be largely experiential to help you prepare effectively for the range of operational policing scenarios and contexts you will encounter
- The use of state of the art, immersive, simulation technology is integrated to facilitate learning and build your confidence within a safe learning environment
- Assessments are authentic and holistic, integrating the assessment of your knowledge and understanding with assessment of your policing competence
- There is additional certified CPD provision embedded throughout the programme, offering opportunities for you to develop further skills
- You will have guest speakers from specialist organisations and other support agencies
- You will be allocated named contacts to support both your occupational and academic learning and development.

Admission Criteria

You must meet the minimum entry requirements which are published on the programme specific webpage. In addition, you must have passed the national recruitment standards and passed all the national and local recruitment selection procedures, and

• Attained the age of 18 years or older, and ideally to have achieved a Level 3 qualification (or equivalent) and Level 2 in English and Mathematics (or equivalents) prior to entry.

As part of the recruitment process an interview will be undertaken to assess your suitability for the role and course.

If your first language is not English, you need to take an IELTS test or an equivalent qualification accepted by the University (see <u>https://www.yorksj.ac.uk/international/how-to-apply/english-language-requirements/</u>).

If you do not have traditional qualifications, you may be eligible for entry on the basis of <u>Recognition of Prior Learning (RPL)</u>. We also consider applications for entry with advanced standing.

A link to the national recruitment standards for police constables can be found below: <u>https://www.gov.uk/government/publications/national-recruitment-standards-eligibility-criteria-for-police-recruitment-and-consistent-recruitment-practices</u>

Disability Disclosure

York St John University and Humberside Police are committed to providing an inclusive experience for everyone who studies on the programme. If you have a disability, we encourage you to disclose this, and any other relevant information, as early as possible so that adjustments may be identified and put in place to support you from the outset.

Once you are on your programme, you are encouraged to discuss the impact of your disability on your learning as well as any additional or changing adjustments you require. This can be with your Academic Adviser, Police Training Mentor, Programme Leads or a Disability Adviser or at your tripartite meetings. We will work together to find a solution which works for you.

Functional Skills

For those aged 18 or under at the start of their apprenticeship it is a key requirement for you to have achieved Level 2 Maths and English in order to progress into Level 6 of the programme. If you cannot evidence attainment of GCSE Maths and English (grade C or 4), or equivalent, prior to recruitment, you must undertake Functional Skills test at Level 2 during the apprenticeship. York Business School will support your development prior to assessment (which is undertaken via an external partner

You will be given a mock assessment (as an initial assessment) to identify gaps in knowledge and support needs and allocated support accordingly. This support may include 1:1 sessions; small group support; online materials or work-book activities. You will undertake a further mock assessment and when ready will be entered for the external assessment. If any further gaps are identified, further development activities will be set, and the process will continue.

Programme Aims

Our PCDA aims to prepare and shape the police officer of the future, having a positive impact upon local communities and the wider society. The programme provides a blended learning experience, integrating work and study. It structures the development of the knowledge, skills, and behaviours required of a police officer, achieving the following standards of professional performance:

Knowledge

- Understand the legal and professional responsibilities of policing as a profession, and modern policing strategies, moving forward
- Apply knowledge of criminology, as relevant to their professional practice, with particular

emphasis upon community policing and crime prevention

- Understand national strategies in relation to countering terrorism and perform the frontline role of police constable in this specific context
- Understand the criminal justice system as relevant to the role of police constable, ensuring effective performance in relation to key criminal justice procedures and processes
- Understand and act upon the fundamental responsibility of the police service to identify

and provide professional support to those who are vulnerable and at risk, whatever the

context

• Understand and engage in effective digital policing, with specific reference to cyberenabled crime.

Skills

- Acquire and apply appropriate research skills in order to put evidence-based policing initiatives into practice
- Acquire, use and enhance professional communication and engagement skills, including

effective use of social media in policing

- Apply conflict management skills, as appropriate and required
- Acquire and demonstrate leadership, team working and partnership-working skills in a policing context.

Behaviours

- Employ an ethical approach to policing, maintaining the highest professional standards in providing a service to the public
- Proactively embed equality, diversity and human rights considerations as a core function of professional practice
- Understand, employ and evaluate evidence-based initiatives in the context of preventative policing and problem-solving
- Make decisions, founded upon critical thinking, in complex professional situations and contexts, demonstrating appropriate knowledge and application of powers, legislation, policy and procedure
- Exercise autonomy and professional discretion, as appropriate to the role
- Develop and maintain professional resilience in dealing with challenging situations
- Actively engage in continual self-reflection, evolving strategies to improve their own professional practice
- Proactively identify, protect and support individuals in need of public protection, and deal professionally with those who perpetrate offences against them
- Engage in lawful, safe and effective front-line policing
- Research, develop, implement and review practical, evidence-based initiatives to improve policing performance and, in so doing, contribute to the evolving evidence-base for effective policing.

Programme Learning Outcomes

The programme learning outcomes (PLOs) describe the expected results you will achieve at each level of study as you progress through your programme. They outline the relative demand, complexity, depth of learning and learner autonomy associated with the particular level of learning and achievement. These learning outcomes are aligned to the national Framework for Higher Education Qualifications (FHEQ) and are a key mechanism for demonstrating you have met the required academic standards.

At Level 4, you will be able to demonstrate that you have the ability:

4.1. To apply a systematic approach to the acquisition of knowledge, underpinning concepts and principles and deploy a range of subject specific, cognitive and transferable skills

- 4.2. To select and evaluate different approaches to solving well defined problems and communicate outcomes in a structured and clear manner
- 4.3. To identify and discuss the interrelationship between knowledge and experience (personal and workplace) and draw effectively on relevant research evidence from books, journals and other data from the field of study (e.g. for essays, bibliographies, reports and presentations)
- 4.4. To build and monitor an operational competency portfolio of evidence, reflecting the knowledge, skills and behaviours relevant to Level 4 of the degree apprenticeship completion. *
- At Level 5, you will be able to demonstrate that you have the ability:
- 5.1. To apply and evaluate key concepts and theories within and outside the context in which they were first studied
- 5.2. To select appropriately from, and deploy, a range of subject-specific, cognitive and transferable skills and problem-solving strategies to problems in the field of study
- 5.3. To effectively communicate information and arguments in a variety of forms in the generation of ideas.
- 5.4. To accept responsibility for determining and achieving personal outcomes. *
- 5.5. To reflect on and integrate experiences across varying academic and operational workplace contexts, drawing on recent scholarship and current statutory regulations. *
- 5.6. To monitor and broaden ongoing evidence of operational competency, considering the knowledge, skills and behaviours relevant to Level 5 of the degree apprenticeship completion; identifying any gaps, prioritising and planning personal development targets for successful ongoing achievement. *

At Level 6, you will be able to demonstrate that you have the ability:

- 6.1. To critically review, consolidate and extend a systematic and coherent body of knowledge
- 6.2. To critically evaluate concepts and evidence from a range of resources
- 6.3. To transfer and apply subject-specific, cognitive and transferable skills and problem-solving strategies to a range of situations and to solve complex problems
- 6.4. To communicate solutions, arguments and ideas clearly and in a variety of forms*
- 6.5. To exercise considerable judgement in a range of situations*
- 6.6. To accept accountability for determining and achieving personal and group outcomes in a range of operational contexts*

- 6.7. To reflect critically and analytically on operational experiences, drawing on recent scholarship and current statutory regulations. *
- 6.8. To identify, critically evaluate, reflect upon and discuss the key knowledge, skills and behaviours developed over the course of the degree apprenticeship. *

Given the competency-based nature of the programme, the PLOs aim to encourage you to connect and integrate what you learn in class, study and work-based contexts. You will be required to provide a rationale for actions and decisions taken in the workplace (particularly those marked with an Asterisk *). These will be assessed through self-reflection and professional discussion

Learning, Teaching and Assessment

Overview of the Curriculum

Level 4 Curriculum: Foundation Learning

Level 4 develops your understanding of the police service including the role of a police constable and professional standards required; any core values and principles in professional policing; and the legislative framework in which the police operate.

Over the course of the year, you will gain fundamental skills required across all policing contexts: (a) communication; (b) problem solving; (c) conflict management (d) teamwork and leadership; and (e) evidence-based policing.

You will understand the range of policing areas serviced by the police, including response, community, roads and digital policing and counter terrorism. You will consider aspects of criminology, examining how crime, policy, social inequalities, and divisions impact upon policing. You will develop an understanding of public protection and vulnerability; examining personal factors and risks that require timely intervention and multi-agency support.

A core theme running through the entire programme will be evidence-based policing, hence you will develop practical, research and academic skills throughout. Within the workplace, you will work towards gaining your Independent Patrol Status by the end of Level 4.

Features of Level 4:

- There will be an emphasis on teaching input, with a longer teaching block at Level 4 across the first half of the year to ensure you have a sound level of knowledge and skills before being deployed into the workplace. A final teaching block is scheduled towards the end of the year to support your deeper learning through reflection and connection of work, class and research-based learning experiences.
- Your patrol block will be phased; initially with the support of a police tutor to coach you towards being signed off as safe and lawful and then work towards gaining Independent Patrol Status (required as a progression gateway to Level 5).
- You will be given dedicated study time throughout the year.
- There will be an observed rotation towards the end of Level 4, enabling you to observe different police departments, to help you distinguish the interdependencies and teamwork required across the service.

To progress to Level 5 of the programme you must pass all Level 4 modules as detailed in the programme structure table. All modules are non-compensatable.

Level 5 Curriculum: Application of Learning

Level 5 builds upon your learning during Level 4 and will help you develop your autonomy in both the academic and occupational aspects of the degree apprenticeship. You will revisit the concepts and areas covered at Level 4 at a greater depth.

You will further your understanding of the police service, analysing the policing role and comparing it with others, examining malpractice and the maintenance of professional standards across diverse communities. You will apply an increasing range of policing skills and behaviours within differing operational areas and develop your ability to evaluate decisions made and draw upon appropriate evidence to inform and evidence your decision.

The modules will be themed by the operational policing contexts mirroring your work placements. You will further your understanding of public protection, drawing on theories and practice, to ensure vulnerable people are protected. You will get the opportunity to further your skills and knowledge of criminal integration and crime prevention.

In the workplace, there will be an emphasis on your increasing independence across the range of policing operational areas and collecting evidence and reflections towards your full Occupational Competence Portfolio. By the end of level 5, you will be given the opportunity to discuss your extended study topic for Level 6.

Features of Level 5:

- Your teaching blocks are interspersed between deployments, to facilitate deeper learning and reflection, through interconnecting work, class and research experiences.
- Your work-based deployments will increase allowing you to discover the difference between the different policing contexts (including response; communities; roads and investigation), ensuring evidence for your full operational competence.
- You will be operating independently during patrol, collecting evidence for your workbased portfolio.
- You will have dedicated study time scheduled in Level 5 to support independent study.

To progress to Level 6 of the programme you must pass all Level 5 modules as detailed in the programme structure table. All modules are non-compensatable.

Level 6: Specialist Learning

At Level 6, you will be developing an advanced level of knowledge and skills, building on the areas and concepts covered at Level 4 and 5. Everyone will cover two core modules: Professionalising Policing, which covers an advanced understanding of the police constable role to include leadership, team-working, introduction to coaching, mentoring and assessment; and Advancing Policing Practice, which will provide advanced input on analytical, evidence-based, problem solving and research skills.

You will then undertake a further module related to a specialist area. The default module option for all apprentice officers will be a study within the *Evaluating Response Policing* module. Other module options for this extended study may be available at the time of

selection, but this is strictly guided by the organisational need for Humberside Police. This will be influenced by the prevailing policing priorities at that time.

You will need to have successfully completed your Operational Competence Portfolio before you can start working towards your end-point assessment [EPA] in the second half of the year. You will focus on your extended study on an agreed research topic in this specialist area. This enquiry-based project aims to develop your autonomous reasoning, analytical and research skills to a high standard. It will enable you to demonstrate your individuality, independence, analytical and communication skills.

Features of Level 6:

- All apprentice officers will follow the same delivery model, interspersing patrol with teaching blocks.
- Teaching blocks will be scheduled in the first half of the year, with blocks of research and scholarly activity (RSA) in the latter half of Level 6, structured to support your End-Point Assessment.
- You will be allocated increasing levels of independent study time, to enable you to balance your workload and work towards your extended study and preparation for your professional discussion.

To be awarded the BA (Hons) Professional Policing Practice you must pass all level 6 modules as detailed in the programme structure table. All modules are non-compensatable. (also see the progression and graduation requirements section on Pg. 17 this document)

Delivery Approach

Classroom based sessions will be organised in block teaching weeks, reducing in length as you progress through the degree apprenticeship. Classroom sessions will utilise a range of student centred, active learning techniques, which are interactive and designed to help build on prior learning, make connections and enhance understanding and application of the programme content.

The sessions will be varied to give different learning experiences, from presenting an interpretation of complex ideas, through discussions and explorations of authentic case studies, to demonstrations of practice and problem-solving workshops. Included will be a number of practical sessions (such as role play or simulation), in which you will resolve reallife incidents using immersive technology. This will enable a deeper understanding, put theory into practice and build confidence in the application of skills and tools that are required in the workplace. Such experiential approaches are adopted to provide a safe learning environment in which to develop the ways of thinking, and practise the required skills and behaviours, for a policing role.

You will routinely work with peer groups and staff, giving and receiving feedback, building trust and understanding in your cohort. Reflection will be a fundamental part of the learning process and consequently will be taught and practiced throughout the apprenticeship. The teaching blocks will give the intellectual freedom, stimulation and focus to explore and challenge what is experienced in the workplace, make connections and extend knowledge and skills; thus, deepen learning over time.

A blended approach is taken on this programme, with a mix of face-to-face teaching and online learning. All learning materials will be made available through the Virtual Learning Environment (VLE) along with additional material to reinforce learning, such as filmed

lectures, interactive presentations, podcasts, articles, media clips, policy documents and unrestricted police material. There is the flexibility to access this through mobile technology, or when offline.

There will be a requirement to access preparatory material and continually reflect on learning, building up an evidence base in the occupational competence e-portfolio. Interspersed between sessions will be online e-learning programmes and activities, some of which may be required to be completed outside class time. These tasks are designed to continue engaging you with the material, to integrate it into your body of working knowledge, and acquire additional knowledge or skills relevant to Humberside Police.

Learning Environment

You will be principally located at Courtland Road Police Training centre in Hull for the majority of the teaching. You will be able to gain access to Courtland Road and Police Stations via an electronic key fob, which is integrated into your warrant card. You will also have access to police stations whilst on and off duty, to help you with projects and assignments if needed. All activity is monitored both via electronic access and also when logging onto any electronic resource.

You will be issued with a force laptop for use throughout the degree apprenticeship, which will be used in the workplace and for completion of academic work, assignments, and reflective practice and your portfolio of operational competence.

At the Courtland Road site, you will have access to a purpose-built resource centre providing online access and printing facilitates as well as study spaces for independent research and further reading. Training rooms are fitted with electronic whiteboards and breakout rooms for group work. Other resources include six computer related training classrooms, two interview suites consisting of eight interview rooms, two student/apprentice officer resource rooms and a 60-seat lecture theatre. Courtland Road is fitted with immersive Hydra learning platform, which simulates real-life policing incidents and includes a library of numerous scenarios and incidents. Apprentice officers also have access to body-worn video equipment as a learning resource.

You will have access to York St John's University network remotely from your personal laptop, or a networked computer. All course material will be made available on *Moodle*, York St John's virtual learning environment, along with additional material to reinforce learning, such as filmed lectures, inter-active presentations, podcasts, articles, media clips, policy documents and any police material that is unrestricted or non-sensitive. Recognising that you will be working across the Humberside region and on full shift rotas, this can be accessed flexibly through mobile technology. The Moodle site is also an interactive platform for you to talk to one another and remain in touch when on patrol. Through the network you will also be able to access York St John's library and learning support services.

Through police networks, you will have access to a number of online resources including the Police National Learning Database (PNLD) and College of Policing Knowledge Hub. You will also have access to the College of Policing Managed Learning Environment (MLE); accessible from a networked computer or work-issued laptop.

Across the University's main campus there are a range of study facilities, which will be available for you to use when on campus. Holgate building contains several small study pods and desks to allow for individual or small group work. The De Grey building contains a number of desks for small group study, as well as lockers containing laptops for loan. Temple Wing contains a number of desks suitable for individual study.

Deployment

Deployments have also been phased for you to apply your practice based policing skills and build your knowledge of different operational policing contexts, whilst becoming increasingly independent over time. Initially (patrol during Level 4), you will be allocated a work-based tutor to support you whilst on patrol, who will work with you towards being signed off as 'safe and lawful' and then gaining Independent Patrol Status (by the end of Level 4).

The design of a single block of time for the initial patrol enables you to move through the supported deployment phase into independent patrol flexibly at Level 4. Flexible and adaptable levels of support and coaching are provided to aid you towards Independent Patrol Status.

One of the special features of the programme is that you will be exposed to different policing departments, subject to operational viability, towards the end of Level 4 and different policing contexts during Level 5 (rotations), providing you with exposure to different areas of operational policing. Towards the end of Level 4 you will have the opportunity to observe different departments or areas (such as the Humberside Police control room, community cohesion, custody, prisoner processing teams) to help you locate your role within the context of the complete policing environment.

These day long placements in up to five areas will aim to provide an insight into the work across Humberside Police. This is designed to help convey the complexities, interdependencies and interconnections of different areas of Humberside Police, showing the importance of team work not only within your role but the wider team. At Level 5, these deployment phases will be scheduled to give you a placement (weeks 5-15) within roads policing, community policing and criminal investigation as well as response policing. The length of these placements will be determined by operational viability, anticipated to be at least two-weeks in each of roads policing, community and criminal investigation, with longer deployment in response policing.

Subsequent deployments will take place during Level 5 (weeks 21-30 and 35-52) and level 6 (weeks 5-13 and weeks 20-52 {interspersed with study weeks}). It is accepting that your individual learner journey and experiences will naturally differ, depending on what happens during your shifts. The placements will provide the opportunity for you to gather the required range of evidence for your operational competence portfolio. This will be monitored by the police tutor and supervisor.

The deployment phases will also allow you to apply your theoretical learning in the workplace, while also providing the experience to support your knowledge development. As such there becomes an integration between the theory and practice which can be demonstrated through your assessment activities and enable you to demonstrate your development of knowledge, skills and behaviour.

Apprentice Officer Support

There is a range of dedicated support available to you throughout your learning journey. You will be given a named contact, within Humberside Police, the University, and whilst on patrol. They will be aware of any learning needs you may have, work with you to help address any gaps and support you to reach your full potential. They can guide you to explore alternative ways of thinking about something and direct your reading in beneficial areas that might complement or deepen your understanding of a topic.

This awareness is enhanced through a formal information sharing agreement between Humberside Police and the University. This ensures both sides involved in your development understand exactly what your needs are to ensure smooth progression through your development through a fully collaborative approach. There are a range of facilities within York St John University to support you during your studies. The library services offer a wide range of e-books, journals and other material, which you will be able to access off campus. There are academic study support advisers who can help support your academic development, offering tutorials and workshops to help with improving your study strategies, reflect on your planning process or developing your academic writing skills. You can join the YSJ Student Union and sign up for any one of the large number of clubs and societies on offer. Your wellbeing is paramount, and the University Student Services offer a range of facilities to assist and support your health.

There are also numerous support services available through Humberside Police to support you including Occupational Health and Wellbeing Unit, Employee Assistance Programme, coaching and mentoring programmes and support via the Police Federation.

Assessment and Feedback

Academic assessments have been aligned to the programme learning outcomes and are varied in style, giving you multiple ways of demonstrating that you have met the core requirements. The forms of assessment are summarised in the assessment plan. Where possible, the assessment methods will reflect the requirements of the police officers' role such as operational planning, report writing, case studies and reviews, police recruit style examination, practical elements, presentation and research. These will support your learning and give you evidence to include as part of the Operational Competence Portfolio. There is often more than one assessment per module and a number of smaller units of assessment spread out across the year so that they are not all concentrated at the same time. As part of your academic development, assignments will foster critical and original thinking through structured activities and study. Study time has been incorporated into the timetable during teaching blocks and patrol to support you in managing the academic and professional demands of the apprenticeship.

You will be prepared for the assessments that contribute towards your degree apprenticeship through continual formative activities (e.g. peer and self-assessment) with feedback a routine part of your learning journey. These activities will help you fully understand the process of assessment and the criteria used to assess your work. You will use the University's assessment criteria to give feedback and jointly reflect on what is required to achieve a higher grade. You will also receive on-going feedback from your peer group and staff relating to your learning and development.

You will be permitted to have one resit attempt per assessment. (For more information see the Failure of modules and Resit attempts section below)

You will progress towards a single research project during Level 6, which will form part of your End-Point Assessment (EPA). Following assessment of potential areas available and following consultation with Humberside Police you will conduct an extended study in an agreed policing area. This will enable you to demonstrate an increased depth of knowledge, independent study and effective time management.

Throughout the PCDA, as an apprentice officer you will be required to collect and record workplace evidence as an ongoing continual process. This record of workplace evidence will be stored within an Operational Competence Portfolio (OCP). The OCP is a factual record of

incidents and situations that you have independently dealt with throughout your operational duties. It must reflect and represent the minimum operational experience needed for you to be assessed as competent for Independent Patrol Status (by the end of level 4) AND Full Operational Competence (FOC) within the earlier part of level 6 (it is expected that this will be achieved by week 17 of Level 6).

In order to collect evidence, you will need to complete a regular journal of operational experience. This will take the format of a reflective report, the journal will allow you to describe and reflect on your performance and knowledge in relation to the standards. These journal reports will be supported by further evidence, for example:

- Observation
- Testimony of witnesses and expert witnesses
- Body Worn Video (BWV)
- Work outputs (product evidence) examples of work outputs which could be the form
 of:
 - Interview recordings (which could be video and audio)
 - Written reports (including witness statements)
 - Witness testimony
 - Plans
 - Photographs
 - Any other suitable records (including updates of force systems and notes).
- Professional discussion
- Assessor Devised Questions (ADQ)
- Self-reflective assessments.

The aim of the journal is to enable you to reflect on your experiences and explain how you have drawn upon and utilised the knowledge gained throughout the programme.

Evidence within the OCP will be documented extensively throughout the programme and should meet the OCP criteria, accurately reference the criterion as well as conform to the following underpinning principles:

- *Sufficiency* is there sufficient evidence for an assessor to make an assessment decision?
- *Currency* is the evidence current? Has it been gathered during the relevant timeframe?
- *Relevancy* is the evidence relevant to what is currently being assessed?
- *Validity* is the evidence legitimate? e.g. Body-worn camera footage may be deemed more valid than the account of a fellow learner
- Authenticity is the evidence accurate, or has it been misrepresented?

Formative operational assessments: It is important for assessors to carry out an initial assessment to gauge what level of knowledge and understanding that you have against the OCP competencies. Formative assessments may be used to focus on developing a particular skill or quality, but it is necessary for you produce your own evidence to meet all assessment objectives. Assessors will identify and highlight any areas in which they believe you require additional support, assisting your development, and in the identification of requirements for future summative assessment. This is an ongoing process of continual dialogue between you and your assessor, with feedback being provided continually, and documented as part of your journal of operational experience.

Summative operational assessments: At the point it is believed that you are able to display competence against criteria within the OCP, after consultation with your assessor, any evidence obtained will be assessed to make a formal assessment decision relating to

OCP criteria. This will take the form of a Portfolio Review Meeting. During these meetings, an assessor will hold a formal meeting with you to check if the evidence contained meets the standards for Independent Patrol Status, or Full Operational Competence.

If these principles are met, and the evidence contained within indicates that OCP units are complete, the assessor will conduct a detailed examination of a sample of the evidence within the OCP. They will discuss relevant incidents with you and if the assessor is satisfied you have achieved the required standard OCP units can be recorded as complete, for either Independent Patrol Status or Full Operational Competence.

Independent Patrol Status is defined as 'the stage of professional development at which you have demonstrated sufficient competence in role to function independently, safely and lawfully in the workplace, alongside other policing colleagues in the operational arena'. Independent Patrol Status has been identified as a compulsory 'progression gateway' into Level 5 of the programme.

Full Operational Competence: Sufficient evidence must be collated within the Operational Competence Portfolio to achieve Full Operational Competence status.

As part of the End-Point Assessment (see below), evidence contained within your OCP will be further examined and scrutinised to ensure a balanced and justified decision is made as to the completeness of the OCP.

End-point Assessment

The End-Point Assessment (EPA) is delivered across three modules. You will begin working on your EPA once you gain Full Operational Competence and have completed and passed all 300 academic credits, including any resit attempts. You will be allowed two resit attempts for the EPA modules.

Your EPA will be carried out by an independent assessor and consists of the following three components, completed in the order, as set out in the operational standard:

- Part 1 Professional Discussion
- Part 2 Extended Study
- Part 3 Presentation plus panel discussion

Your **professional discussion** is assessed against all assessment criteria. It will be necessary to address each one to pass overall. It will be necessary to pass your professional discussion before being assessed for the other elements of the EPA although you will be able to start work on the other elements. For this element you will be awarded an overall Fail, Pass or Distinction. One resit attempt will be permitted.

Your **extended study** will be an evidence-based research project focused on one a specialist area of policing. The default module option for all apprentice officers will be a study within the *Evaluating Response Policing* module. Other modules options for this extended study may be available at the time of selection, but this is strictly guided by the organisational need for Humberside Police, which is influenced by the prevailing policing priorities at that time.

The topic you study will need to have the potential to add value within an operational delivery setting. You will conduct this study during the final part of your apprenticeship. Through this work, you will be required to demonstrate:

• a critical evaluation of a complex body of policing related knowledge

- demonstration of application of appropriate research methodologies and techniques
- analytical techniques and problem-solving skills applied in a policing context
- the critical evaluation of evidence, arguments and assumptions, to reach sound judgements which are communicated effectively
- a critical reflection of learning achieved during project
- a comprehensive understanding of the potential impact of recommendations on workplace, workforce and service
- how professional integrity has been considered and applied within the evidencebased research project.

Your extended study will be 10,000 words. Please note that the minimum pass mark will be 40. A Pass will be defined as a mark of 40-69% and distinction will be over 70%.

Your **presentation and panel discussion** will relate to the completion of the evidencebased research project followed by a panel discussion. You will be required to critically analyse and reflect on:

- the foundation provided by operational competence
- how you applied higher-level skills, knowledge and behaviours in your work
- how you might synthesise your project findings into operational delivery, indicating key learning points and improvements or adjustments to your own or others' working practices.

Typically, the presentation will last 30 minutes, and the panel discussion will last 30-40 minutes. Like the evidence-based project, the minimum pass mark will be 40. A Pass will be defined as a mark of 40-69% and distinction will be over 70%.

The overall EPA mark is Pass, Fail and Distinction. Your marks from each element will be amalgamated to calculate your overall grade. For the purposes of your university degree classification, the marks for these three components will be numerical and represented as a percentage. This will be determined according to the University's mark scheme.

Failure of modules and resit attempts

All modules are non-compensatable which means that you must pass all modules at the relevant academic level to be able to progress to the next academic level.

To pass a credit bearing module you must achieve a minimum mark of 40. You will be permitted to have one resit attempt per assessment. If you fail the resit attempt you will be terminated from the programme but may be eligible for an exit award (as detailed on page 1 of this document and in the assessment plan on page 43 onwards). For further information about resits, please see <u>Reassessment | York St John University (yorksj.ac.uk)</u>. Resit fees do not apply. Termination from the programme will mean that you have failed your probationary requirements, and thus your services as a police constable will be terminated, in line with regulation 13 of The Police Regulations 2003.

Non-credit bearing modules, i.e. 0 credit modules, are Pass/Fail and must be passed. The non- credit bearing modules that are Pass/Fail are:

• DDP4012M Independent Patrol Status. If the Police Force determines that you have not fully evidenced the required competencies for IPS by the end of Level 4 you will be terminated from the programme but may be eligible for an exit award. Re-sits for this modules will not be permitted.

- DDP5014M Operational Competence Portfolio. If the Police Force determines that you are not making significant progress towards achieving FOC by the end of Level 5 you will be terminated from the programme but may be eligible for an exit award. Resists for this module will not be permitted.
- DDP6013M Full Operational Competence. If the Police Force determines that you have not fully evidenced the required competencies for FOC you will be terminated from the programme but may be eligible for an exit award. Re-sits for this module will not be permitted.

In addition, the following non-credit bearing module must also be passed:

• DDP6014M Operational Competence Analysis and Evaluation. This module forms part of your End-Point Assessment. You will be assessed on evidence contained within your OCP by a professional discussion. For this element you will be awarded an overall Fail, Pass or Distinction. It will be necessary to pass your professional discussion before being assessed for the other elements of the EPA. If you fail the assessment you will be permitted one resit attempt. If you fail the resit attempt you will be terminated from the programme but may be eligible for an exit award.

Termination from the programme will result in your services as a police constable being dispensed with, in line with <u>regulation 13</u> of The Police Regulations 2003. Thus, you will not pass your probation and your role will be terminated.

Officer Safety Training (OST) (including first aid and fitness test)

OST and First Aid are compulsory aspects of the Police Constable role. All apprentice officers will be expected to maintain appropriate levels and certification throughout the duration of your programme (and following). Failure to maintain appropriate levels (assessed on an annual basis and in addition to your credit and non-credit bearing modules) may result initially in restrictive duties, supervision activities and an action plan produced (overseen by Division). Failure to address the issues and reach appropriate levels will result in termination of your contract with Humberside Police and termination from the programme.

Progression and graduation requirements

The University's general regulations for undergraduate awards apply to this programme.

Any modules that must be passed for progression or award are indicated in the Programme Structure section as non-compensatable.

In addition, the following programme-specific regulations apply in respect of progression and graduation:

- Due to the following modules being assessed on workplace competency resit attempts will not be permitted:
 - o DDP4012M Independent Patrol Status
 - DDP5014M Operational Competence Portfolio
 - o DDP6013M Full Operational Competence
- Throughout your period of probation, subject to the provisions of <u>regulation 13</u> of The Police Regulations 2003, your services as a constable may be dispensed with at any time if the chief officer considers that you are not fitted, physically or mentally, to perform the duties of this office (this includes failure to pass Officer Safety Training and/or first aid), or that you are not likely to become an efficient or well conducted constable. This would also result in termination from the programme, and you would not

be eligible for the award of BA (Hons) Professional Policing Practice. You may still be eligible for an exit award.

Further information on progression and processes can be found in the Code of Practice for Assessment and Academic-related Matters via the links below: <u>https://www.yorksj.ac.uk/media/content-assets/registry/policies/code-of-practice-for-assessment/Code-of-Practice-for-Assessment-202021-V1.pdf</u>

https://www.yorksj.ac.uk/registry/regulations/regulations-for-undergraduate-awards/

Third attempts are permitted in the following modules:

DPP6014M – Operational Competence Analysis and Evaluation DPP6015M – Extended Study DPP6016M – Reflections on the Application of Learning to Operational Competence

Late result modules

As the PCDA will run outside the normal academic year, the programme will contain modules, where the result of the first attempt is not known in time for the School Assessment Panels (or equivalent level progression point for non-standard entry points). This will apply to the following module:

• DPP 4010M Criminal Investigating

Part Time Working Arrangements

Part-time working on the programme will be considered on a case by case basis. considering individual circumstances, the programme structure, and business need at that point in time.

Part-time will only be available to you once you have completed the Level 4 gateway requirements including Independent Patrol Status; hence up to and including Level 4 will only be available full-time. Flexible working applications to reduce hours after Level 4 maybe be made in line with the Humberside Police Flexible Working policy. Discussions will be held on an individual basis so that you are clear about the effect it may have on your apprenticeship following submission of an application.

Where a reduction in working hours is agreed, it is anticipated that any classroom-based learning (teaching blocks) at Level 5 and 6 would be on a full-time basis. Any part-time working agreement would be applicable only in your operational deployment (on the job training). One of the following formula will be used to calculate your extended duration:

- i. 12 x 30/average weekly hours = new minimum duration in months; or
- ii. 52 x 30/average weekly hours = new minimum duration in weeks

The selection of the formula will depend on the availability of teaching block and based on your individual circumstances as to not disadvantage anyone who is working part time.

Due to the structure of the programme, you will move between cohorts, if required, to lengthen time between teaching blocks. This would be discussed with you as appropriate.

In line with the University regulations for the completion of a degree, during Level 5 and 6 you should complete a minimum of 60 credits per annum. (A typical example of a part time structure can be seen below however this will be designed on a case by case basis)

You must work sufficient hours each week so that you can undertake regular training and on-the-job activity to ensure you are likely to successfully complete your apprenticeship. A record will be kept of the agreed average number of hours you work each week. In line with the flexible working guidance you are required to work a minimum average of 24 hours per week.

Your apprenticeship will be completed within a maximum of 5 years of commencement irrespective of what extensions are in place.

Learning to Operational Policing

Appendix 2

Assessment Strategy

The overall assessment approach is driven by the desire to be holistic and student-centred, thereby integrating the academic and operational aspects of the degree apprenticeship – ensuring that assessments are authentic and self-reflective written work will provide supporting evidence of operational competence. The assessment approach will be continuous and integrate formative (developmental) assessment with summative assessment (awarding academic credit and achievement of operation competence). Apprentice officers will receive regular knowledge checks as a matter of routine to ensure that they have the required levels of policing knowledge.

Assessment of Academic Competence

Academic assessments have been aligned to the programme learning outcomes (PLOs) and are varied in style to allow for different learning preferences. The variation in assessment types enable apprentice officers to have more than one way to demonstrate that they have met the core requirements and thereby ensure the assessments are as inclusive as possible.

The forms of assessment are summarised in the assessment plan. Where possible, the forms of assessments are authentic, to closely reflect the role and the different operational policing contexts they will be working in (e.g. reflective analysis, reporting, group working, presentations). This will support learning and generation of evidence required for the operational competence portfolio. Across Levels 4 to 6, the range of assessment types have been mapped against the area of curriculum to ensure that a range of assessment types are being used across the programme.

Apprentice officers will be prepared for credit-bearing assessments through continual formative activities (e.g. peer and self-assessment, role play) with feedback and feedforward a routine part of an apprentice officer's learning journey (including self-assessment and peer feedback). There is often more than one assessment per module and several smaller units of assessment covering different aspects of knowledge, skills and behaviours. Assessments are also spread out across the year so that they are not all concentrated at the same time; enabling apprentice officers to accumulate credit as they progress. Study time has been incorporated into the timetable during teaching blocks and patrol to support them in managing the academic and professional demands of the course. There is progression towards a single research project towards the end of the programme at Level 6, which will form part of the End-Point Assessment (EPA). This will enable apprentice officers to demonstrate an increased depth of knowledge, independence and time management.

Assessment of Operational Competence

Apprentice officers will work towards achieving Independent Patrol Status at Level 4 and evidencing achievement of Full Operational Competence (FOC) throughout Level 4 - Level

6. It is anticipated that all apprentice officers will have fully demonstrated their FOC by the end of Level 5, or into the first quarter of Level 6 if agreed by Humberside Police. This is facilitated by the provision of varied placements across the first half of Level 5. Across the degree apprenticeship, apprentice officers will build evidence in their Operational Competency Portfolio (OCP).

Throughout the PCDA, apprentice officers will be required to collect and record workplace evidence as a continual process. These records of workplace evidence will be stored within an OCP. The OCP is a record of incidents and situations that, the apprentice officer, have independently dealt with throughout their operational duties and must reflect the minimum operational experience needed to be assessed as:

- Competent for Independent Patrol (by the end of level 4) and,
- Full Operational Competence (within the earlier part of level 6).

Stages of Assessment:

Throughout the programme, apprentice officers will progress through various phases of learning and assessment, these are:

- Acquisition and assessment of knowledge and understanding
- Acquisition and assessment of skills
- Application and assessment of knowledge and skills in workplace (supervised)
- Application and assessment of knowledge and skills in workplace (independent).

This will ensure that apprentice officers undertake three key stages of assessment during the programme.

- Progressive assessment of underpinning knowledge and understanding during the learning-based stages of the programme (off the job training)
- Assessment of applied skills, behaviours and knowledge and understanding in the workplace, under supervision, this relates to the Independent Patrol Status (IPS)
- Assessment of applied skills, behaviours, knowledge and understanding relating to Full Operational Competence (FOC).
