AN OVERSEAS STUDY ADVENTURE WILL BE ONE OF THE MOST ENJOYABLE AND UNFORGETTABLE TIMES OF YOUR LIFE.

At York St John University we offer a truly life-changing UK study experience, and we'll help you every step of the way.

Mixing with students from over 100 countries, you'll enjoy rich classroom discussions and diverse perspectives, get to experience a new culture, perhaps learn a new language, and develop a global network of friends. Importantly, you'll realise the benefits of a prestigious British education with a well-established institution that's climbing in the university rankings. With approximately 7000 students on our York campus, a strong community and inclusive ethos, we deliver a truly tailored study experience. Our small class sizes, individual tutors for each student, and an open-door policy, means our academics will get to know you by name. Along with our strong teaching ratings, you will enjoy the benefits of a personalised learning environment. We are particularly proud of our most recent ranking in the 2019 National Student Survey, which placed us as 27th out of 122 universities in the UK for student satisfaction.

We'll transform your life and kick-start your career. Through our LaunchPad career centre, we'll help you develop interviewing skills, a resume and a personalised career plan. Our Grad2Director and Grad2Freelancer programmes are available to all international students and will support you to start up your own business either in the UK or back home. We also offer placement opportunities across most of our degrees, and coupled with our extensive links with business, employers and alumni, as well as our London campus, we'll help launch your career before graduation.

All of this takes place in the beautiful, safe and historic city of York. Known for its rich history, vibrant student life and excellent transport links to London, Edinburgh and Manchester, it's not surprising that York has been voted the best UK city (2018) and best Northern city (2019) to live in by *The Sunday Times*.

We look forward to bringing you an international, personalised and transformative study experience, right in the heart of York. We can't wait to welcome you to our University and global family.

Having graduated in 2017, Furaha is now employed by Tunaweza Children's centre as an Outreach Occupational Therapist in Uganda, working with children with autism.

“My greatest ambition is to open my own rehabilitation centres in Uganda and Kenya that aspire to not only provide all therapies to children, but also to raise awareness of the different learning disabilities that can affect people.

York St John University gave me a platform to explore occupational therapy on a wider scale. I had the opportunity to interact with our brilliant lecturers, who had so much experience. I loved the fact that York St John is not as large as other universities and this gave me the opportunity to easily interact with and get to know my lecturers and fellow course mates.”

Georgia Fenwick, who is in her final year of studying English Literature & Creative Writing BA (Hons), tells us about her experience of working as a Global Guide.

“ We aim to provide as much assistance for international students as possible; part of our role as a Global Guide is greeting international students at the airport and getting them settled in their new accommodation. We also participate in trips to places such as Manchester, the Yorkshire Dales and Christmas markets, all whilst being a friendly face that students can recognise and approach for any of their needs. I thoroughly enjoy meeting new people and learning about a variety of different cultures. After studying abroad I was more inspired than ever to enhance my education about other parts of the world and support students through their process of settling in to a new country, a feeling I know well! ”

OCCUPATIONAL THERAPY MSc (PRE-REGISTRATION)

“ Choosing the right university can be both an intimidating and exciting experience. For me, it was important to find a university situated in a safe, beautiful city with a great programme and many resources and facilities. I chose York St John University based on the actual programme itself. Because I lived 3,500 miles away and did not have the ability to come and see the University, I heavily relied on the website and communication with the University when making my decision. I found out about the programme and the University through the World Federation of Occupational Therapists website, which provides a list of all approved occupational therapy programs. As an international student, it was important that the programme was an internationally recognised qualification. Studying this programme will allow me to work in both the UK and in Canada as a registered Occupational Therapist. ”

THEOLOGY & RELIGIOUS STUDIES BA (HONS)

“ I have particularly enjoyed the creative modules like Religion and Creative Writing, Visual Arts and Religion and Myth because the modules have been very flexible and covered topics that I have always loved learning about. Having the help and support of the lecturers and my tutor have been one of the main highlights; they have been so helpful and have been there for all of us and they'd always stay behind in class to offer any support. As a practicing Muslim, there are places to pray and this has also been a highlight because it is such an accepting and comfortable environment to express your practices and beliefs. ”

LECTURER IN APPLIED LINGUISTICS AND TESOL

“ Four years ago, I developed a collaborative task for students studying World Englishes at York St John University and at our partner university, Suzhou University of Science and Technology in China. It is language-related concerns that first inspired me to start this research: the worry that all of us experience when confronted with that which is unfamiliar to us and, in the case of this project, unfamiliar Englishes. I hope to show that when it comes to making ourselves understood by others, we all have a part to play. ”

MEDIA PRODUCTION: FILM & TELEVISION BA (HONS)

“ I left Spain when I was around 14 and moved to London, which was extremely hard because I didn't really know any English. Getting to know new people and learning the language was quite difficult.

When I was at college, I found a passion for media and film and at the same time my English improved massively. I then received an offer from York St John University and I knew it was a great opportunity to move away and experience a different place.

There are lots of opportunities in York to meet other people, which I did by joining the local Men's Football Club. It basically feels like a giant family and I really feel like part of the community here in York. ”

TENE DOWLING, BERMUDA

PSYCHOLOGY BSc (HONS)

“As a student I participated as a mental health volunteer with an organization called SLV.Global. SLV.Global is a charitable organisation that provides psychology students and graduates the opportunity to gain valuable work experience in Sri Lanka, India and Bali, Indonesia. Their focus is on global mental health and on endorsing positive mental health while strengthening the existing resources in the communities where they work. For me this experience was a once in a lifetime opportunity and being a non-traditional student, it has put so much into perspective for my future. I faced new challenges, set new milestones, embraced my creative side, supported, encouraged and spoke up for others. I learned so many new things, adapted to and embraced different personalities, stepped outside of my comfort zone, lived in a jungle and I even trekked an active volcano at 3am just to see the Balinese sunrise at its best. The most rewarding part was being part of a team who had an impact on a community inundated with a myriad of mental health challenges.”

YORK
ST JOHN
UNIVERSITY

PETRA WILKINSON, SWEDEN

CHRISTIAN THEOLOGY BA (HONS)

“ I came to York St John to do an Undergraduate degree in Christian Theology. I was so excited, but also apprehensive, leaving my country (Sweden), selling the car, the furniture, giving up a permanent job that I liked and being twice as old as most other students. But I am SO grateful that I came!

During my three years of Undergraduate studies and three years of part-time Masters studies I have learned so much and been continuously challenged and inspired by the brilliant, warm and highly dedicated academic staff. I feel I have really been seen as a person here and everybody wants you to excel and do the best you possibly can.

The community feeling of the University is obvious and really helps you feel at home and get involved in things. Everybody is intent on giving you all the resources and support you need to be and achieve the best you can in both your studies and as a person. There is so much care and support available for the whole person. You are seen and valued as an individual. It is a diverse campus with people from all over the world, with all sorts of backgrounds and experiences. I love that! The fact that the university is located at the heart of beautiful York is a glorious bonus! ”
